SPATTER

EXCELON TILE

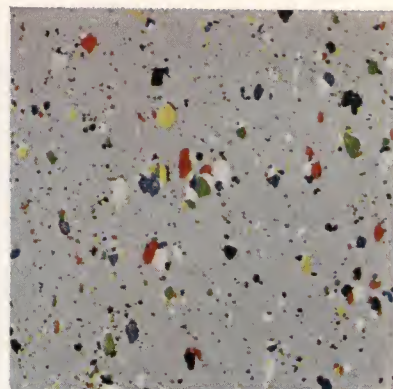

Service Gauge Only

9" x 9"

Armstrong's popular Spatter styling now is available in Service Gauge Excelon Tile. The Spatter styling can be combined with straight-grained Excelon Tile for greater design variety. Spatter Excelon Tile has the same physical characteristics as regular Service Gauge Excelon Tile. A fire-retardant composition, greases, oils, alkalis, and mild acids won't harm it. It's an ideal floor for the home mechanic because it can be cut with scissors.

Armstrong CUSTOM CRAFT TEMPLATE SET No. S-905

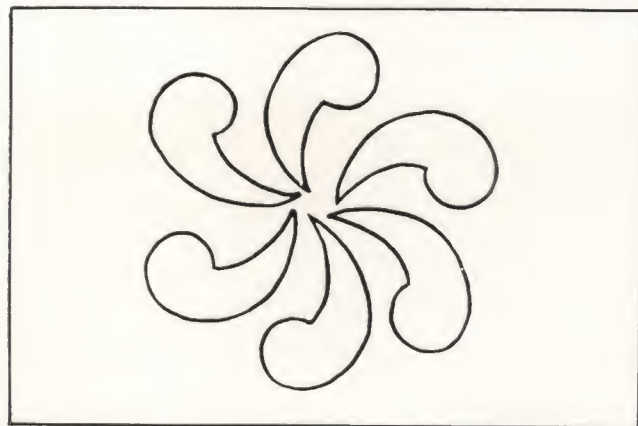

The Armstrong Template Set consists of two metal templates, one being a nest of stars, the other having seven basic elements of design. There are both male and female templates. The nest of stars in the first template has two sizes of stars. The design element template contains a reverse ribbon (1), a petal (2), a scroll (3), a teardrop (4), a ribbon (5), one "ski" element (6), and one plant stem element (7).

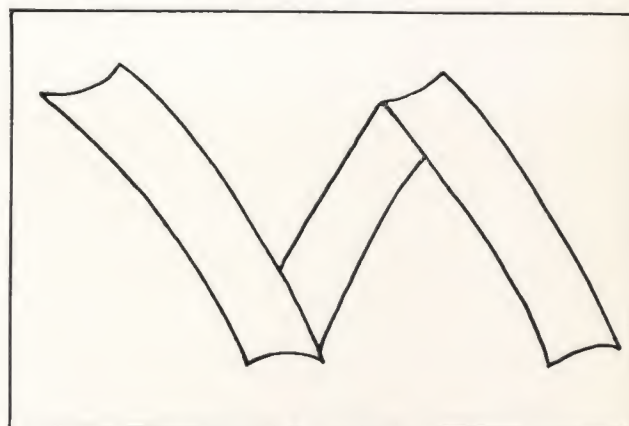

(No circles are included, since they can be made by the average mechanic through either the use of the Armstrong Universal Scriber or they can be laid off with a pair of dividers.)

SUGGESTED INSET DESIGNS

(Which can be traced and cut with the Armstrong Custom Craft Template Set)
